Synopsis Books:

Many say love will get you through the toughest times, but sometimes it just isn't enough to pull you free of a black hole. Despite the love Jerin found in Juli, their union placed him on a path that would ultimately lead to isolation and despair via a very unfortunate sequence of events. As the headaches that once blighted Jerin's otherwise care-free existence return, he is offered a new wonder-drug, never pausing to consider how strangely perfect it sounds. Jerin soon discovers that these new capsules have a most unexpected side effect, allowing him a glimpse into the secret life of the partner he now rarely sees. Falling is a story of love, loss and self-discovery, set in a high-concept universe.
