Synopsis Books:

Ava has finally found true love with her boyfriend, Mason, and her life is absolutely perfect. Until one night, during a casual kayak ride, the two of them are pulled into a whirling vortex under a bridge, and Ava is thrown into another universe where unicorns and fairies exist in the human world. With her alternate-universe self, Avalon, and an annoying hunter named Hunter, Ava must find a way to get back through the portal and to Mason. She is able to access another portal with the help of a witch, but when Avalon and Hunter tag along, thereâ€™s no way of knowing where theyâ€™ll end up next.
