Synopsis Books:

Noelle Buckman is looking forward to making a fresh start in college, one that doesnâ€™t involve immature high school boys. The second she steps on campus for freshman orientation, she can sense the possibilities. Especially when she spots Andy, a resident advisor whoâ€™s not just hot but also thoughtful enough to open doors for a girl. And Andy has his eye on Noelle. Even when her nerves take control and she thinks she comes off as a hillbilly with no direction, Andy can see what sheâ€™s really like and heâ€™s more than a little interested. But orientation is less than two full days and thereâ€™s an entire summer between Noelle and Andy. Will her attempt to romance the R.A. be as short-lived as college orientation?
